## Technology Transfer and Innovation

### Events in technology transfer and innovation field

The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers. Do you want to participate at some events? Do you have technology profiles in the fields? Please contact [office@ipacv.ro](mailto:office@ipacv.ro) to support you.

#### June 2011

- 29 [Brokerage event at Consense 2011](#) Stuttgart (Germany)
- 30 [World Nuclear and Radiation Expo Korea 2011 \(NURE 2011\)](#) Gyeonggi-do (Korea, Republic of)

#### July 2011

- 06 [Open Innovation Forum - Sustainable Fashion Meets Technology](#) Berlin (Germany)
- 13 [NANOTEX 2011 Brokerage event in the emerging fields of Nanotechnologies & Organic Electronics](#) Thessaloniki Greece)

#### September 2011

- 08 [RIGA FOOD brokerage event](#) Riga (Latvia)
- 13 [Fact Finding & Partner Matchmaking Mission to St. Petersburg](#) St. Petesburg (Russian Federation)
- 13 [Matchmaking at 9th German Foreign Trade Congress](#) Bremen (Germany)
- 14 [SPACE 2011 - Livestock brokerage event](#) RENNES (France)
- 14 [Energy is Future 2011](#) Ankara (Turkey)
- 15 [Subcontracting B2B Matchmaking 2011](#) Tampere (Finland)
- 19 [ETNDT5 brokerage event](#) Ioannina (Greece)
- 19 [Brokerage Event at EMO 2011 in Hannover- Meet the World of Metalworking](#) Hannover (Germany)
- 28 [EU Biotechnology Transfer Day: Seoul 2011](#) Seoul (Korea, Republic of)
- 29 [European Symposium on Photocatalysis - Bilateral Meetings Session](#) Bordeaux (France)

#### October 2011

- 06 [CeBIT Bilisim Eurasia Istanbul 6-9 October 2011 Brokerage Event](#) Istanbul (Turkey)
- 10 [ANUGA Matchmaking](#) Cologne (Germany)
- 11 [BioBusinessMatching at the BIOTECHNICA](#) Hannover (Germany)
- 12 [Vegepolys International Business Event](#) Angers (France)
- 18 [Ceramic Network 2011 - 4th Edition](#) Limoges (France)
- 18 [MILIPOL Paris](#) Paris (France)
- 18 [Techno MATCH 2011](#) Skopje (Macedonia, the Former Yugoslav Republic of)
- 19 [Tech Fruits & Vegetable 2011 - 3rd Edition](#) PARMA (Italy)
- 19 [EUROTOOL Brokerage Event 2011](#) Krakow (Poland)
- 20 [Renewable Energy Technology Transfer Day: Seoul 2011](#) Seoul (Korea, Republic of)
- 20 [FAKUMA 2011](#) Friedrichshafen (Germany)

#### November 2011

- 03 [AquaMatch 2011](#) Amsterdam (Netherlands)

- 09 [HERVEX-Hydraulics, pneumatics, mechanics, dedicated electronic devices, mechatronics](#) Calimanesti (Romania)
- 10 [BATIMAT - Sustainable construction matchmaking event](#) Paris (France)
- 15 [WATEC Israel 2011](#) Tel Aviv (Israel)
- 18 [Philoxenia 2011:B2B Event in the Tourism Sector](#) Thessaloniki (Greece)
- 18 [TOSM/ITN 2011](#) Torino (Italy)
- 23 [Transnational Technology Transfer Day POLEKO 2011](#) Poznan (Poland)
- 24 [TECH INDUSTRY 2011](#) Riga (Latvia)
- 30 [POLLUTEC Horizons Paris / Green Business Meetings](#) Paris (France)

#### **Brokerage event, Open Innovation Forum - Sustainable Fashion Meets Technology, 6 July 2011, Berlin, Germany**

The Open Innovation Forum Sustainable Fashion Meets Technology is an event designed as a platform offering a unique opportunity to meet potential partners for new business and upcoming projects. The event gives an overview on the Open Innovation approach and its challenges, as well as some showcases in the field of creative industries.

Representatives of companies, universities and research institutes have an opportunity to present their own offers or requests for innovative solutions, exchange know-how with international experts, initiate and discuss new collaboration ideas and search for adequate project partners. This event represents a great commercial opportunity for your organisation and will bring together a wide range of like minded companies.

Each participant has to register by providing a short description of her / his company, technological offers and needs and a short explanation of partners, they wish to meet or are looking for. These data will be published on the Participant list, which is continuously updated according to the submitted profiles. All interested parties will have a possibility to present their companies, projects in a 3-minute-timeslot during the Elevator Pitch. The Participant list, the Elevator Pitch represent the basis for selecting partners for discussions during the Meeting session.

During the Meeting Session there will be a possibility to locate on a small stand (OIF micro-stand) in order to present products, prototypes or technologies (on request).

**More...** <http://www.amiando.com/OIF-greenshowroom2011>

#### **NANOTEX, Brokerage event - Nanotechnologies & Organic Electronics. Thessaloniki, Greece, 13-14 July 2011**

The Brokerage Event will be organised in the framework of NANOTEX 2011 Expo, the first specialized exhibition on Nanotechnologies & Organic Electronics taking place in Greece, International Conference on Nanosciences & Nanotechnologies, International Symposium on Flexible Organic Electronics. The mega-event will host 100 exhibitors from Greece and abroad and 2,000 trade visitors from Greece and SE Europe. There may be some limited funding for the visitors of the EXPO and participants to the brokerage event. Areas of interest will include:

- |   |  |
|---|--|
| * Large scale Organic Electronics & Photonics     | * Nanotechnology in Agriculture & Food |
| * Micro & Nanoelectronics                         | * Nanotextile                          |
| * Nanotechnology in Energy & Environment          | * Nanomedicine                         |
| * NanoFabrication & Nano-Construction             | * Nano Biotechnology                   |
| * Metrology, Equipment & Characterization systems | * Pharmacy                             |

**More...** contact Dr Dimitriadis directly through e-mail or by telephone at +30 2810 391963, [adimi@help-forward.gr](mailto:adimi@help-forward.gr)

#### **SciTech Europe, Advancing Research, Innovation and Collaboration, 24 November 2011, The Square, Brussels**

3rd annual SciTech Europe conference we will explore how to develop an integrated approach to research and create the right conditions for innovation, invention & industry to flourish.

Delegates will gain a strong understanding of EU science policy, have the opportunity to engage with stakeholders, funding agencies & leading academics, will bring the EU science community together where speakers will discuss:

- Collaborate European research
- How to achieve better value for money and successful outcomes
- The development of innovative health solutions and achieving excellence in life sciences
- Frontier research and the latest technologies
- How best to take innovative ideas and pioneering solutions into the commercial market
- Addressing the unprecedented global challenges such as climate change, healthcare, energy and food security.

**More...** <http://www.publicserviceevents.co.uk/187/scitech-europe>

#### **Euroscience Open Forum (ESOF), Dublin, 11-15 July, 2012**

ESOF is an inter-disciplinary, pan-European meeting, held under the auspices of [Euroscience](#), which aims to:

- Showcase the latest advances in science and technology.
- Promote a dialogue on the role of science and technology in society and public policy.

- Stimulate and provoke public interest, excitement and debate about science and technology.

The event will bring together 6,000 scientists, business leaders, government officials and international media to discuss the best of European science and to address all of the major global challenges, including Energy, Climate Change, Food and Health. ESOF 2012 will incorporate a number of distinct streams:

- A Science programme of seminars, workshops and debates on the latest research.
- A Media programme to promote science communication.
- A Business programme to link basic research with industrial applications.
- A Careers programme for young researchers.
- An Exhibition to showcase the best of European public and private research.
- An Outreach programme to engage with the general public.

A ten year programme of sustained investment in science has resulted in world-class universities supporting cutting-edge research. The call for proposals for scientific sessions is now open and will close on 30 June 2011 at 12.00hrs GMT.

**More...** themes & submission guidelines: [ESOF2012 Guidelines](#) ; [info@esof2012.org](mailto:info@esof2012.org) ; <http://www.dublinscience2012.ie/>

### Technology transfer services / All reasonable models of co-operation will be considered

You are an inventor, do you have technology to transfer, do you have new products, technology based on innovations to offer; do you need news technologies, do you need technical assistance in technology transfer...

Please contact IPA CIFATT Craiova, e\_mail: [office@ipacv.ro](mailto:office@ipacv.ro) ; web site: [www.ipacv.ro](http://www.ipacv.ro).

### SMEs

**Romianian company** involved in a transborber business partnership with a company from Bulgaria, which produces poliester packages (trays) and PVC foil looking for partners to sell our products.

The company addresses mostly to :

- Fruit and vegetables producers
- Meat and meat products producers
- Food delivery companies
- Restaurants with food delivery service.

We offer the folowing products:

- Poliester absorbing trays
- Poliester non – absorbing trays
- Double poliester trays
- PVC foil

For those interested samples or presentation photos can be delivered. If a company wants to meet face to face at company's headquarters it will pay transport and hotel accomodation

**Contact:** Razvan Nastase, Mobile: +40 737 332 662, e-mail: [nastase\\_razvan@hotmail.com](mailto:nastase_razvan@hotmail.com)

### Venture Capital (VC) Firms “Do They Just Invest in Ultra-risky Businesses?”

There are numerous stories about venture capital firms that have turned young entrepreneurs into millionaires inexperienced observers may erroneously conclude that a well-managed VC portfolio concentrates on one investment that will return 200 or 300 times the initial layout of cash, usually to justify a drab performance by the rest of the portfolio.

Download a free Audiobook [http://www.audible.com/t1/PBRP0329WS022409?source\\_code=PBRP0310WS012709](http://www.audible.com/t1/PBRP0329WS022409?source_code=PBRP0310WS012709)

This often fosters the notion that an ultrahigh-risk strategy is characteristic of venture capital investing, the managers plunging exclusively into new and untried schemes, hoping to win big every now and then. But in fact, most venture capital strategies are diversified and, more important, disciplined in their investment selection process, carefully evaluating each potential deal one by one. Not all (not even most) venture funds focus on early stage companies.

Venture funds come in all shapes and sizes, and each has its own area of speciality:

- Some VC pools focus on late-round [investments](#) infusions of cash made to companies
- Buyouts of mature firms are another popular VC strategy, so-called turnarounds or investments in troubled comp.
- Some VC funds are hybrids pursuing more than one strategy, investing parte of their assets in public securities

The point is that a VC manager balances risk against reward: A preseed investment needs to forecast sensational returns to balance the risk, while a late-round purchase of convertible debt promises a more modest payoff but is safer.

[More:](#) ; [Venture](#) ; [Preseed](#) ; [Capitals](#) ; [The Ventures](#) ; [Young Entrepreneurs](#) ; [Flag](#)

Dealing with VC is an intense business. The relationship between VC-the companies they invest in is such that each VC professional can carry a portfolio of no more than a handful of companies. If you hope to raise the capital you need by taking the VC capital route, you need to have a firm understanding of what makes VC tick and what gets their attention in a crowded financial marketplace. Susan is an experienced international writer and analyst in finance, investments, business, green economy and international markets.... [View profile](#)

## Research / Innovation and Entrepreneurship

### Commission has launched the "Smart Specialisation platform" to boost innovation in the EU regions

The Commission has launched the "Smart Specialisation platform" to support EU regions, Member States in better defining their Research & Innovation strategies, build on their competitive advantage. The aim is to make a further step on the path to achieving the objectives set by the Member States as part of the Europe 2020 strategy. Organisations interested in joining, can register at: <http://ipts.jrc.ec.europa.eu/activities/research-and-innovation/s3platform.cfm>

## Partner Search

### Cyprus- Romania Call for Proposals- partner for environmental health

The research interest for this call of proposals is in the field of *environmental health sciences*, specifically in *human exposure assessment*, with interesting in partnering with a Romanian organization conducting human biological tissue (urine, blood, hair, toenails) analyses for inorganic/organic contaminants, focusing on specific exposure determinants.

**Contact:** Konstantinos C. Makris, Cyprus International Institute for Environmental & Public Health in association with the Harvard School of Public Health, Cyprus University of Technology, Tel: +357-25002398, Fax: +357-25002676, [konstantinos.makris@cut.ac.cy](mailto:konstantinos.makris@cut.ac.cy) , <http://www.hsph.harvard.edu/faculty/konstantinos-makris/>

### Partner Search from Russia - Environmental Energy independence.

Unique project. We need technology investor-partner in new fuelless engine, energy technology. Fuelless car engines (motors) truck, bus, marine engine, generator engine, aviation engine, fuelless generators.

Invesor-partner (with me) starts the fueless generator production in a year. Generator power is 25-200KW and more. The production of one plant is 50 000-100 000 pieces of fuelless generators per year. The work execution: researches, experiments, prototupes. The stages that are left (for the joint work): samples, small series, series.

The field of research using: Alt. energy, alt. transport, alt. fuelless generators, car engine (motors), electroenergy, marine engines, car engines... The research principle:

With the power of 1,5KW, i.e with the usual accumulator, the working time of the accumulator is 3-5seconds, to create without fuel generator with the power of 50-10 000 KW, electric station power 16-1000 Megawatt, and to create without fuel engine(motor) with the power of 100 – 3500KW and more

The research stage: The researches and experiments are done, two industrial prototypes are made.

The patents should be done (50|50). The investor-partner is responsible for them. The limits: The patents can not be sold, only the licenses are sold, very expensive and under some conditions.

The key competitive benefits: The full energy independence from fuel technologies. The income from generator production, engines (motors) from 50-200%. The selling market in the western countries is not limited. The expenses for the 1<sup>st</sup>period, producing the samples of engines-generators min.2.5 -5.0 millions Euros. The production term is 5 years.

The second period - engine and generator production is determined by the investor-partner. The technologies that I suggest give You the full energy independence. We suggest You one more technology comparison.

Today technologies: gas dynamic, electromash .....

1. ICE-internal combustion engine-power 75 Kw, moment of rotation=182 N\* m ( $M=F*r$ ), 2500-3000 turs per minute, radius 0,05 metres, Power (F)  $182 / 0,05 = 3640 \text{ N} * \text{m}(\text{metres})$ .
2. Electromotor: power 1000 Kw, 1500 turs per minute, radius 0,225 metre, moment of rotation 6600 N\* m, Power (F)  $6600 / 0,225 = 29333 \text{ N} * \text{m}$ .

New fullness technology gives powers (F) 30000 N\* m; 500 000 N\* m - 3 000 000 N\*m per second. ( $9.81 = 1 \text{ kg power (F)}$ ).

The result of the technology comparison is clear: New fullness technology is much more by power and rotation moment, that the existed technologies. The transformation of less powerful energy 1.5Kw in more powerful energy 8 Megawatt.

The suggested technologies aren't connected with the thermodynamics and classic electrotechnics and its laws.

Company: Kameron Ltd, mail address:Russia 404121, Volzsky, Volgograd region, Karbysheva street 39-97 Pavlov V.V. phone: +7 (8443) 25 -26 -65. Names of the researchers: Vladimir Pavlov, phone: +7 (8443) 25 -26 -65, Natalia Orlova +79064042928 (English fluently) e-mail: [NatashaPavlova@rambler.ru](mailto:NatashaPavlova@rambler.ru)

### **Partner Search: Institute for Medical Biology of the Polish Academy of Sciences (Lodz) for research cooperation**

The Institute for Medical Biology of the Polish Academy of Sciences conducts scientific research in biomedical sciences focusing on the explanation of basic molecular mechanisms of physiological and pathophysiological processes, as well as medical biotechnology. The Institute actively contributes to the development of these research fields, especially by developing innovative methods for basic and applied research. Specific tasks of the Institute include:

- research in the field of medical biology and biotechnology
- research on relations between the organism and its environment
- research on relations on the pathogen-host interface on the molecular, cellular and organismal level

Areas of specific interest:

- high- throughput screening platforms
- chemical libraries, chemical resources for hit discovery and optimization
- bio- and cheminformatics support

Preferred partners should be from: Estonia, Latvia, Lithuania, Czech Republic, Slovakia, Hungary, Romania, Bulgaria, Makedonia, Slovenia, Croatia, Serbia, Ukraine.

**Contact:** prof. dr hab. Zbigniew Leśniowski, Institute for Medical Biology of the Polish Academy of Sciences, e-mail: [zlesnikowski@cbm.pan.pl](mailto:zlesnikowski@cbm.pan.pl) , [www.cbm.pan.pl](http://www.cbm.pan.pl)

### **Call For Tender / Proposals / Applications / Fundings / Awards**

#### **Announcing the Global Youth Summit 2011**

In early July, the online call for applications for the Global Youth Summit 2011 will go live! This November, again 60 social entrepreneurs, community activists, volunteers aged 16 to 19 will be brought to the UK for a week of training sessions, workshops. As with previous summits, applicants will be expected to submit a two-minute video describing their efforts to bring about a positive change in their communities, their ambitions on how to take this to the next level.

Starting on 4 July, applications will be accepted [here](#).

#### **Marie Curie Fellowships of the Gerda Henkel Foundation, Call for Proposals**

Starting in 2011, the Gerda Henkel Foundation is offering Marie Curie Fellowships in the M4HUMAN (Mobility for experienced researchers in historical humanities) programme aimed at supporting outstanding scholars. This funding initiative is co-financed by the EC under the FP7. One objective of this fixed-term programme is to increase networking between researchers in the historical humanities at the international level, including researchers in religious, cultural, political sciences. Other goals include the promotion of trans-national academic exchange, increasing transnational mobility, facilitating further education, the positive, long-term influencing of the research environment in both origin / destination countries. Research scholarships can be requested for a larger-scale research work or in connection with a research project. The deadline for applications is **30 June 2011**.

**More...** [http://www.gerda-henkel-stiftung.de/m4human.php?nav\\_id=831&language=en](http://www.gerda-henkel-stiftung.de/m4human.php?nav_id=831&language=en)

### **Policy**

#### **The transport white paper will help put EU on the road to a more competitive, resource efficient transport system**

The 2011 white paper entitled, 'Roadmap to a single European transport area - Towards a competitive and resource efficient transport system' is a strategically and politically important document that addresses the crucial issues for the future of the European transport policy and the continent's transport systems...

### Europe must face up to the reality of climate change and begin preparations for the use of CCS technology

Don't you know there's a war on? That phrase, used in the appropriate circumstances, can have the power to sweep aside any excuses and prevarications, cut through red tape, and get things done. It's a shame it doesn't have the same effect in peacetime. Global warming threatens massive disruption. Carbon capture and storage (CCS) technology offers a crucial means of preventing CO2 emissions from the world's fast-growing number of fossil fuel power stations from being released into the atmosphere...

[More... read full article](#)

### The EU must involve the regions if it is to realise its economic vision, avoid the mistakes of the Lisbon strategy

The economic and financial crisis which began in 2008 has been a watershed in the thinking and acting within the EU. The EU is currently taking important decisions to improve our shared economic governance of the internal market and of the eurozone. These concern all our citizens. That's why I consider it of the utmost importance that the regional authorities are aware of the process and feel a sense of ownership...

## Events

### SYNASC, 13<sup>th</sup> International Symposium on Symbolic & Numeric Algorithms for Scientific Computing September 26-29, 2011, Timisoara, Romania

SYNASC aims to stimulate the interaction between the 2 scientific communities of symbolic, numeric computing, to exhibit interesting applications of the areas both in theory/in practice. The choice of the topic is motivated by the belief of the organizers that the dialogue between the 2 communities is necessary for accelerating the progress in making the computer a truly intelligent aid for mathematicians & engineers.

## Ph.D. candidate Transitional Justice, Understanding the Age of Transitional Justice: Narratives in a Historical Perspective. NIOD University of Amsterdam

The goal of the NIOD program is to contribute to understanding the impact, aftermath of mass state-sponsored human rights violations on post-genocidal, post-conflict, post-repressive societies. The levels may be distinguished as follows:

- The victims (the individuals telling their story)
- The institutions for the administration of Transitional Justice (the narrative of judicial and extra-judicial authorities)
- The validators, or form-givers, political elites, media, police, other relevant actors, who selectively frame the public debate, impart the use of narratives (produced in trials, vetting procedures, truth commissions, NGO-sponsors, oral histories) with a particular political, social significance. Job requirements
- Master's in History, Law, or Social- and Political Sciences;
- Professional experience on topics related to the program
- Self-reliant;
- Experience with modern information technology;
- Professional attitude with excellent communication skills;
- Fluent English;
- Skilled in the development of proposals which could, via the content, design, execution.
