EUREKA Events

- [Hannover Messe 2011](#), 04-08-April-2011, **Hannover (Deutsche Messe AG) / Germany**
The 13 leading trade fairs that make up HANNOVER MESSE 2011 will present a unique cross-section of key industrial technologies. This event is one of the world's leading showcases for industrial technology.
- [Smart Systems Integration 2011 - SSI 2011](#), 22-23-March-2011, **Dresden / Germany**
SSI 2011 is a European conference & exhibition on integration issues of miniaturized systems - MEMS, MOEMS, ICs and electronic components, it is an international communication platform for research institutes, manufacturer.

7th b2fair matchmaking event at HANNOVER MESSE, 4-8 April 2011

This international matchmaking event are organised by the Enterprise Europe Network-Luxembourg of the Luxembourg Chamber of Commerce in close collaboration with the Enterprise Europe Network Hanover at the NBank and the support of many colleagues of the Enterprise Europe Network.

With over 5,000 exhibitors and some 200,000 trade visitors, Hannover Messe offers an enormous potential of companies looking for business contacts on an international level. As connecting link between trade fairs and business co-operation events, b2fair allows visitors as well as exhibitors of the world's biggest industrial trade fair to optimise their trade fair participation by organising customised business meetings. Partner country of HANNOVER MESSE 2011 is France.

Where can I search patent information? ... [more](#)

Intellectual property for businesspeoples

This is the beginning of a series on issues of which entrepreneurs should be aware with respect to intellectual property (IP). The first five topics address common pitfalls of entrepreneurial businesses which I have observed hundreds of times in my practice. The second five topics address cost effective strategies by which small business owners maximize security of their intellectual property. I will address one topic each week, so stay tuned if these topics catch your fancy.

Business Offers

Bulgarian Company Complex Credo" LTD was established in 2008 with its c. Trudovec. We are training and vocational centre. The education policy of the Centre is aimed at creating the conditions for qualitative study, vocational training and is ready to meet the current educational needs and specific vocational requirements. The Centre offers excellent facilities equipped with modern technical means. All training rooms with 30/60 places computer training room equipped with 10 jobs specialized laboratories for training with professional "Gas installations and air-conditioning". The hotel "Credo", as part of the complex "Credo" offers comfort and calm atmosphere for its guests high quality services at affordable prices.

1. We would like to contact partners to conduct joint training sessions on topical themes (new technologies, solar technologies, ecological balance)
2. We want to work with clients interested in corporate training, customers searching for conducting basis of their seminars, celebrations, events. We are interested in contact with tourists to organize tours and travel itineraries.
3. We are looking for information on the developments in the field of training and tourism information about the new requirements in the European regulations.
4. We want to participate in EU programs and projects in the field of training of personnel

Contact: "Complex Credo" LSD, Bulgaria, Trudovec, 6, Car Simeon Street, Tel: 035972393379; 0878 620 425;0878 620 319, Mrs Galina Nikolova, g.nikolova@centrecredo.com ; info@otvaszavas.bg

Looking for manufacturers (precision milling of aluminium castings) Romania

Looking on behalf of a Scottish company for manufacturing partners who can offer improved efficiency with precision milling of aluminium castings (waveguide and other related components) up to 5kg maximum weight. The company

supplies Diplexers, Couplers to the major global telecom companies. It is a high quality company and look for the same features in their partners.

Casting capability; Available capacity

Customer orientated; Pays attention to detail

Proactive and open communicators

Experience in machining waveguide compents

Contact: Tracey Ward, European Knowledge Transfer Executive, Enterprise Europe Scotland, Tel: +44 (0)141 2282252 ; Mob: +44 (0)07879085873; email: tracey.ward@scotent.co.uk

Good understanding and ability to communicate well in English

Focus on quality through complete business end to end process

Availability of electroless nickel and silver plating

Excellent engineering knowledge and practices exercised

Business Request

Worldwide Independent Inventors Association – Romania are looking for partners, investors for own inventions

We have a portfolio a wide range of inventions and prototypes for the renewable energy industry, green energy, as NEW ELECTRIC GENERATORS WITH PERMANENT MAGNETS - PROTOTYPE November 2010, in alternative medicine, 2010 Prototype SPECIFIC FREQUENCY GENERATOR ACUPUNCTURE POINTS for DIABETES by Stavar Iordan and Micu Ioan D.Sc., Doctor Honoris Causa Alternative Medicine of The Open International University - Munich, Germany and Doctor of Alternative Medicine - Malaga, Spain.

Members of our association owning gold medal, silver and bronze at international exhibitions of inventions Geneva.

We are currently seeking investors and manufacturing companies to license, purchase patent rights or enter into a royalty agreement for this inventions or other inventions.

We have a team for energy medicine and search projects with foundations / associations to treat serious diseases with efficient bioenergetic treatments in: ALS (Amiotrophic lateral sclerosis), incipient cases, MS (Multiple Sclerosis), incipient cases, Cancer (especially acute leucemia, lymphomas, melanomas etc.), not advanced in evolution, AIDS (not terminal cases), Severe infections that do not respond at antibiotics.

Contact: Mr Stavar Iordan, Email: contact@inventatori.ro , contact@worldwideinvention.com

A company from Eastern Europe (Transylvania, Romania) search for partners in renewable energy field

The company profile design consultancy European funds and we are looking for unconventional energies investors (wind, small hydropower, solar and photovoltaic panels, biomass). We offer our services from the establishment phase of the site, project development, obtaining approval of operation, building permits, including supervision of construction works.

Contact: Mr. Vlad Dan, email: stelutaimpex@gmail.com ; phone: +040740235675

BABADAG" WIND ENERGY PROJECT Investment Opportunity

The developer (or the "Shareholder") of a wind energy project (the "Project") has expressed his intentions to proceed with the sale of up to 100% of the shares held in the project company (the "Special Purpose Vehicle" or the "Company"). To this end, the shareholder invites either strategic or financial investors to participate in this sale process. The Project consists of building and operating a 31,5 MW wind farm (15 x 2,1 MW Suzlon S88 WTGs), located in Dobrogea region, SE Romania, with the following characteristics : Capacity : 31,5 MW ; Mean wind speed (80 m) : 6,5–7 m/s ; Main Wind Direction : NNW ; Capacity Factor : 26,1% ; Annual production (E) : 73.656 MWh ; Project life : 20 years Data analysis and modelling and the preliminary wind study performed by MEGAJOULE II - Consultoria em Energias Renovaveis SA (Portugal), based on the data from the existing 3 met masts covering an area of 25 km radius.

In order to obtain a better characterization of wind resource and to reduce the inter-annual variability, a correlation with two auxiliary station with enough data period was performed. The Measure-Correlate-Predict (MCP) methodology was applied between the MJ084 – Babadag 1 *in situ* measurement station, two near masts with enough measurement period, MJ030 – Agighiol, located at about 15 km to Northeast, and MJ017 – Acic Suhat, located at about 25 km to Southeast. The MCP was done to enlarge the time period of Babadag 1 met station wind data up to 4 years.

Contact: Mr. Vlad Ion, email: stelutaimpex@gmail.com ; Tel/Fax: +40 36 141-3126

Company from Scotland is looking for a distributor for their product(s) in Romania.

A background about the company: it markets a portfolio of innovative consumer healthcare products in Central and Eastern Europe, Scandinavia and the CIS. They sell a range of branded medical devices, over-the-counter medicines and food supplements via a network of distributors and affiliated companies.

Current product innovations in the Ear, Nose and Throat category have lead to strong sales across a broad spectrum of markets. This should be repeatable in Romania offering good revenue and profit streams to the local company.

In sum the client is looking for a company to act as a distributor for one or more of the company's range of over-the-counter (OTC) products through the pharmacy channel with the support of medical representatives visiting General Practitioners, Ear, Nose & Throat (ENT) specialists and possibly also paediatricians.

Technology Offers

Technology for build barrier against flooding, erosion, ground stabilisation, coastal protection from Switzerland

"Quick-Snake" distinguished by the "Prix Prevention" from Swiss Real Estate Insurance". If the sand bags, in the case of erosion are considered the quickest solution, the modular barrier were each modular unity corresponds to 70 sand bags could represent a more efficient solution. Anyway plausible were that this system, thought to erect sand-barriers (also submerged) to combat flood-and erosion damages, by means of a modular and mechanical driven filling method, as well could serve to create larger spaces of safety around other civil strategic objectives.

The barriers "Quick-Snake" are recommended by the VKF/AEAI (Vereinigung Kantonaler Feuerversicherungen (Organisation of Canton Fire Insurances and Federal Office for Water and Geology), Bern und Bundesamt für Wasser und Geologie, Biel March 2004. *At the moment the Company for the Rhine Protection in Switzerland and Austria has ordered 2 Km of our modular mobile barrier, as first integration for its equipment of sandbags followed form the Flooding defence of the Rhon (650 m)*". We have experimented with success in Switzerland this barrier-set up system, in company with a team of armed forces specialist on the field of disaster management, as well on a air field.

Raising the innovation potential of regions

EU regional funds can help unlock the growth potential of the Union as a whole, by targeting investment in innovation in all regions. This is the central message of a Commission Communication 'Regional Policy contributing to smart growth in Europe 2020'. The Communication encourages national and regional authorities to design 'smart specialisation strategies' to help regions identify their best assets. Concentrating resources on a limited number of priorities will ensure a more effective use of public funds and help to leverage higher levels of private investment.

S&T Strategies of Six Countries: Implications for the U.S. and the World

This study analyzes the S&T strategies of Japan, Brazil, Russia, India, China, Singapore, six countries that are undergoing remarkable growth in their S&T capabilities for the purpose of identifying unique national features and how they are utilized in the evolving global S&T environment. Centers for technological research and development (R&D) are now globally dispersed, setting the stage for greater uncertainty in the political, economic, and security arenas.

Expert evaluators for Intelligent Energy Europe

Are you an expert in energy efficiency, renewables or transport? Are you interested in helping the EACI evaluate project proposals, current or closed projects, or the impacts of the Intelligent Energy Europe programme altogether?

The evaluators list will be used for the Eco-innovation and Marco Polo programmes, both also managed by the EACI. So if you are a green business or freight transport expert you should also consider applying. See the Decision n. 1639/2006/EC establishing a CIP. Any interested person may submit an application at any time during the period of validity of the list with the exception of the last three months of that period. **Deadline: 30-09-2013**

Policy

CIP Public consultation –This is the intro of the draft position paper prepared for EURADA

EU opts for a radical change in its approach. The EC will never be able to solve by its own the problems of 23 million SMEs and to please the expectations of lots of lobbying organisations. The starting points of the next CIP should be:

1. The recognition of the role of each stakeholder in providing support services to SMEs or potential entrepreneurs. The subsidiarity principle should be applied, EC should focus its action on really high added-value support services.

2. The recognition that most SMEs do not need nor are able to access the benefit of EU programmes nor of the internal market/the globalisation of the world economy. The EU must admit that not all enterprises can only access some types of support if and only if they are "invest ready". The EU should concentrate its efforts, scarce means in the following ways:

a) Help Member States and any other stakeholders in the multigovernance system to continuously improve the framework conditions for the creation of enterprises and start-ups and the development of any existing enterprises. This means a review of all the administrative, bureaucratic and fiscal proceedings which might prevent any enterprises from growing, innovating or being transferred, as well as a failed entrepreneur from receiving a second chance.

b) Help support service providers take up new types of high added-value support and push the development of the next generation of support services. This should be done for a few fields of activities: all forms of innovation (ICT, energy, eBusiness), market intelligence, internationalisation, access to finance.

c) Put in place a few pilot schemes for the benefit of European high growth potential SMEs in order to help them to introduce new products/ services on EU or global markets. This would be implemented thank to the selection of a few highly professional support service providers/clusters able to detect and offer financial and non financial support services to enterprises which would be given the informal label of EU strategic SMEs.

d) Create/manage a sign posting system in order to help enterprise advisors/enterprises to understand the way to access the benefits of the different EU funding mechanisms, the goals of the EU2020 Strategy, its different flagship initiatives.

e) Reinforce the supply of early stage funding in partnership with EIF/EIB and ERDF.

f) Support social and societal innovation

EC invites interested stakeholders/representatives of business/ innovation agencies, to express their views.

More... the online survey [here](#) till the **4th February 2011**; http://ec.europa.eu/cip/public_consultation/index_en.htm

The EC has launched a public consultation on all aspects of EU external funding. Deadline 31.01.2011
