## Region of the week

In a new series of articles, a European region will come under the spotlight each week on the [website of Commissioner Hahn](#). The articles will look at the region's situation and priorities, the way EU regional funding is being used, as well as project examples. The first "region of the week" is Voralberg, Austria's westernmost region, which Commissioner Hahn will be visiting on 24-25 March.

## Events

### Genomica: 7<sup>th</sup> NanoBio-Europe, 21-23 June 2011, Cork, Ireland

The conference will showcase the latest international developments in nanobiotechnology, provide a platform to facilitate interdisciplinary communications, new collaborations for delegates from academic, industrial, clinical backgrounds. Cork was cited as one of the top 10 cities to visit in 2010, according to the "Lonely Planet Best in Travel 2010".

Nanobiotechnology provides great opportunities for innovation through converging of knowledge in materials, photonics, electronics, biology, medicine, with technology and application-driven approaches combining. The major focus of the NanoBio-Europe Congress is on medical applications of nanobiotechnology, in which nanotechnology enabled devices/systems should provide the basis for better, more accessible healthcare with improved outcomes for patients.

NanoBioEurope 2011 will not only provide a great opportunity to hear about the latest developments in nanobiotechnology, related applications, but also to experience the combination of working/social environment in Cork, that energises people to envisage new projects, initiate new multidisciplinary collaborations, have fun in the process. The event is accessible to young researchers, registration costs are to the minimum, high quality low cost accommodation have been negotiated.

### Genomica: 3<sup>rd</sup> ESF-COST Research Conference on Systems Chemistry, 23-28 October 2011, Crete, Greece

Researchers from fields including Supramolecular Chemistry, Chemical Physics, Chemical Biology and Theoretical Biology are invited to participate in the 3rd edition of the Systems Chemistry conference series.

This conference is organised by the European Science Foundation (ESF) in partnership with the European Cooperation in Science and Technology. Submission Deadline: 15 June 2011. **Grants for Young & Early Stage Researchers available.**

### Workshop "Design of semiconductor components and electronic based miniaturised systems: European and Russian R&D cooperation" 19-20 May 2011, Ulyanovsk (approx. 900km east from Moscow), Russia

The workshop is aimed at strengthening R&D collaboration between the European Union and Russia in the field of Semiconductor Design Technologies (SDT). To this effect, representatives from both the research and industrial communities will be brought together to **share experiences, present and discuss recent scientific and technological achievements, and identify areas of common interest and potential R&D collaboration in the field of SDT**, namely within the scope of upcoming calls of the European Union' 7th Framework Programme.

The Russian Technology Transfer Network are co-organizer of this Workshop that will include 2 components:

- **awareness raising** of opportunities for cooperative research in semiconductor design under the FP7 ICT Work Programme. It will include overview presentation on of the FP7 ICT semiconductor design related priorities and discussion of EU-RF cooperation priorities in semiconductor design sphere
- **networking** between Russian and European semiconductor design experts and organizations. It will be consist of number of participants presentations (up to 25) on concrete R&D topics or cooperation proposals.

Of special interest are topics pertaining to the industrial sectors designated as high priority for EU-RU collaboration: **IC design, microelectronics, semiconductor physics and nanotechnology, telecommunications.**

### 5th International Symposium on Intelligent Distributed Computing - IDC, October 5-7, 2011, Delft, The Netherlands

The event has a special interest in novel architectures, methods which facilitate intelligent distributed solutions to complex problems by combining human cognitive capabilities and automated processing. Publication will be judged on the basis of their relevance to the symposium themes, clarity of presentation, originality, accuracy of results, proposed solutions.

#### **Practical Seminar How to Establish Financial Engineering Instruments with EU Funds, 30 May 2011, Berlin**

- Discover new ways to increase the absorption of national EU Funds.
- Learn for establishing microcredit, loan, mezzanine, equity schemes for the absorption of ESF and EFRE money.
- Become familiar with the corresponding EU Structural Funds Regulations and COCOF Guidance Note 3.
- Learn the main steps to develop and enforce FEIs and financial tools.
- How achieve your regional and communal priorities by developing particular financial tools.
- How to combine different funds to set up a unique financial instrument best suitable for your needs.

#### **Practical Seminar Sustainable Procurement, 14-15 April 2011, Maastricht**

Sustainability issues have come to the fore and found their legal basis in the EU procurement directives. Guidance on how to integrate social/environmental criteria into procurement has been provided by the EC. This seminar will cover the policy, rules, guidance, case law on sustainable procurement. Sustainability strategies of some Member States will be explored and evaluated.

#### **HRB Post-Doc Funding Call**

We are looking for a suitable Post Doc who would be interested in applying for this Irish Health Research Board (HRB) funding call to work within the Health Information Systems Research Centre (HISRC) in University College Cork on a full time basis for 3-4 years on the e-MEWS project cf. e-MEWS paper attached which highlights the primary focus of this project. For this project we are looking for a candidate with very strong DSS research background.
